**ERP, Advanced Financials,
Revenue Recognition**

Bytemobile Inc.

*Bytemobile Saves Over 50%
On ERP System Costs With NetSuite*

“We were growing very rapidly, opening offices around the world, and our previous ERP solution was making it difficult and expensive to sustain that growth. NetSuite has proven itself far more cost-effective.”

— Bytemobile Inc.

Challenge

- Previous ERP solution proved too expensive to maintain as the company grew
- Required several hours of weekly maintenance
- Required complex IT overhead to maintain

Solution

- NetSuite provides ERP functionality for several accounting functions
- NetSuite’s multi-currency capabilities enable data entry in any currency, with seamless conversion to US dollars for easy global roll-up
- Bytemobile’s custom workflow was implemented in the flexible NetSuite solution

Results

- ERP system expenditures down 50-55% over a 5-year period with NetSuite, compared with the previous ERP solution
- Bytemobile eliminated costly consulting hours with an easy-to-use, cloud-managed NetSuite solution
- NetSuite is being deployed to approximately 260 employees at Bytemobile’s 24 national subsidiaries
- The financial close process is faster and easier than with the previous ERP solution
