

Why NetSuite Learning Cloud Support Company Pass is Excellent For Your Business and Your Employees

A research study showed companies that invest in employee training had 24% higher profit margins. NetSuite's subscription-based Learning Cloud Support (LCS) Company Pass provides training that allows all your NetSuite users to easily and cost effectively engage in continuous learning—enabling your business to boost productivity by maximising your use of NetSuite.

Training Resources

NetSuite Training Resources helps administrators, technical teams, operations, and finance teams to fully harness the power of your NetSuite.

eLearning

Benefit from over 1,000 hours of on-demand online courses and resources.

LCS Live

Take part in live global workshops, forums & webinars with our instructors and product/financial experts that cover leading best practices, new features and so much more.

Ask the Instructor

Have questions? Get answers from expert NetSuite instructors.

Lab Environments

A foolproof way to learn. Avoid business disruption by practicing and building skills within a training environment that is separate from your production environment.

Training Advisory Sessions

NetSuite's LCS Company Pass provides user enablement support with education advising and personalised learning plans.

Education Success Advising

Support your continuous learning, and gain more NetSuite usage efficiencies and improvement with the advising session. Your Education Advisor will collaborate and guide you through your company's user enablement strategy.

Personalised Learning Plans

Get the tools and the know-how to analyse your firm's enablement needs to guide your users on the most optimal learning path.

Customise Learning with the Tailored Training Events Pack

Supplement your LCS Company Pass with the Tailored Training Events Pack. Delivering live, customised training, Tailored Training Events Packs address your organisation's unique NetSuite configuration and education needs.

Live Training for New Users and Experts

Enable all users—onboard your new-starters, and take experts to the next level of NetSuite, for a truly unique-to-you solution.

Customised Content

Create personalised training that is tailored to your business processes.

"Learning Cloud Support (LCS) helped our team rapidly upskill on NetSuite. Our instructor quickly understood our requirements, and trained us in the key functions for our business. They always went the extra mile and demonstrated points with relevant examples."
