# NetSuite ERP

## Real-Time Financial Management in the Cloud

Organisations today demand financial management solutions that are flexible enough to accommodate dynamically changing business needs. NetSuite Enterprise Resource Planning (ERP) helps organisations increase efficiency, improve visibility and set the foundation for good governance. NetSuite ERP also enables organisations to manage IT costs, optimise accounting efficiency, streamline order management and procurement processes, eliminate manually-intensive spreadsheet-based reporting, and improve employee productivity.

## Key Benefits

NetSuite ERP provides powerful capabilities that help companies achieve these benefits:

- **Improved financial operations efficiency and productivity** with a single, integrated system to handle all core processes for users anywhere in the world.

- **Timely financial close** centralising management of all period-end close activities to reduce time and resources spent investigating and resolving errors.

- **Ongoing compliance** with revenue recognition, tax requirements and financial reporting in accordance with various accounting standards and government regulations.

- **Real-time visibility** to see consolidated financial results for any part of the business at a summary level and all the way down to the underlying transactional details.

## Benefits experienced by organisations using NetSuite include[1]:

- Reduced IT costs by 50% or more.

- Accelerated financial close by 20%–50%.

- Cut order-to-cash cycle by 50%+.

- Reduced invoicing costs by 25%–75%.

- Reduced days sales outstanding (DSO) by 10%–20%.

- Reduced audit preparation time by 50%.

## Solution Highlights

### Comprehensive Accounting and Finance

NetSuite ERP provides you with everything you need to establish efficient processes and gain transparency into business operations. In addition to standard general ledger functionality, flexible workflow tools to customise your processes and multi-currency support, NetSuite also delivers:

- End-to-end visibility into your receivables and payables with integrated order-to-cash (i.e. sales order, billing and collection) and procure-to-pay (i.e. requisition, purchase order and invoice) transaction management.

- Inventory fulfilment and costing from factory-to-store with supply chain management capabilities.

- Complete fixed asset lifecycle tracking and reporting from acquisition to depreciation to retirement.

- Support for project accounting and reporting on project financials and profitability.

- Automatic revenue recognition in accordance with accounting standards using flexible scheduling and sophisticated allocations.

- Full-service payroll processing, including support for time tracking, incentive compensation and expense reimbursement.

- Integrated budgeting and forecasting tools to manage financial projections against actuals.

### Financial Close Management

NetSuite ERP helps organisations streamline the close process with capabilities to manage period-end activities, and to detect and respond to problems before they escalate or occur. NetSuite optimises the financial close by delivering:

- Period locking to prevent incorrect postings to future periods.

- Period close checklist of tasks to be completed sequentially.

- Financial adjustments for intercompany transactions, foreign currency revaluation and inventory.
